- Please also note the „Explanations for Export Notifications and the Form for Export Notifications under the PIC Ordinance“

#### 1. Identity of the substance

1.1.	Common name	PROFENOFOS		
1.2	Chemical name in an internationally recognized nomenclature (e.g. IUPAC, CAS)	O-(4-bromo-2-chloro-phenyl) O-ethyl S-n-propyl phosphorothioate		
1.3	Trade name of the substance (if applicable)	0		
1.4	EINECS Code (If available)	255-255-2		
1.5	CAS number	41198-08-7		
1.6	Customs tariff code or harmonized system customs code of the World Customs Organization	2930.9070-930		
1.7	Other number (if applicable, specify)			
1.8	Main impurities / contaminations for which the PIC regulation applies: name, CAS number and content in percent			
1.9	Purity of substance (%)	>89		

**2. Identity of the preparation**

2.1	Commercial or common name of the preparation			
2.2	Customs tariff code or harmonized system customs code of the World Customs Organization			
2.3	Name, CAS number and content in percent for each substance in the preparation for which this regulation applies.			

**3. Information concerning the export**

3.1	Importing country	Brazil
3.2	Exporting country	Switzerland
3.3	Probable date of first export (dd.mm.yy)	26.11.18
3.4	Category (industrial chemical or pesticide) and use in importing country, if known	Pesticide
3.5	Expected yearly export quantity <sup>1</sup>	37000 kg
3.6	Name, address and other information on importer	<p>██</p> <p>██</p> <p>██</p> <p>████████</p>
3.7	Name, address and other information on exporter	<p>██</p> <p>██</p> <p>████████████████████</p> <p>████████████████████</p> <p>██</p> <p>██</p> <p>██</p>

<sup>1</sup>If a preparation containing one or more substances of Annex 1 is to be exported, please give the amount of export quantity of the preparation.
